

# GLOBAL CLINIC RATING™

## Top Dental Clinic Rankings for 2016 **Mexico**

# Introduction

This report is based on the GCR Index, a unique ranking of medical clinics, scored according to apparent levels of standards in the 4 GCR quality pillars of clinic expertise, facilities, services & patient feedback.

The Global Clinic Ranking employs 100's of carefully calibrated performance indicators to provide the most comprehensive and balanced comparison of healthcare clinics available in the world, which are depended on worldwide by patients, doctors, insurance companies and governments.

The GCR rankings are based on the GCR Score, a proprietary algorithm developed by leading healthcare and big data experts. It enables healthcare clinics to know their current quality score, track their performance over time and compare their clinics apparent reputation to their competitors or to other clinics within a city, country or worldwide.

Thousands of healthcare clinics in more than 70 countries, including some of the most recognized medical clinics in the world, rely on the GCR to better understand and improve patient satisfaction and to profit from the GCR international certification scheme.

# Methodology

The GCR is an independent start-up that evaluates healthcare clinics worldwide that have their own website, are mentioned in medical clinic directories or have at least 5 reviews on an independent website.

These clinics are automatically added to the GCR index and scored upon the publically available information given about each clinic.

Verified clinics have had their clinic information updated by the clinic owner or member of staff, or have been personally inspected by a GCR representative.

Certified clinics have been personally inspected by a GCR representative, and have had consultation support to collect and improve on any missing or weak data.

The Global Clinic Ranking employs 100's of carefully calibrated performance indicators to provide the GCR Score for any particular clinic in the following areas:

## **Clinic Expertise:**

This includes how long the clinic has been in existence at it's current location, the clinic accreditations, awards and certifications, how long the doctors have worked in their chosen medical fields, and their medical studies and accreditations.

## **Clinic Facilities:**

This includes both diagnostic & treatment technology available, as well as non-medical facilities.

## **Clinic Services:**

This includes both medical & non-medical services that the clinic provides to it's patients.

## **Patient Feedback:**

The total & average score of the clinics reviews across various independent websites, such as Facebook, Google+, Yelp and medical clinic focused review sites.

# About the GCR

GCR - the Global Clinic Rating supports medical clinics worldwide with a score based on their apparent level of expertise, facilities, services and patient feedback. The GCR allows anyone to quickly compare clinics within any regional area with a 1-5 star score, similarly as you would compare excellent hotels or restaurants.

## For patients

Obviously there's more to choosing the right clinic than cost of treatment. But because private medical care is a highly personalized interaction between the patient and medical team and varies in degrees of complexity, it has been in the past difficult to give absolute guidance on what constitutes a "good" medical clinic.

However, the GCR - Global Clinic Ranking sets out to assist patients & local governments in doing just that. Through the GCR clinic score, GCR rank & GCR index - patients can now see, based on facts - exactly which are the leading clinics in their local area and abroad.

## For Clinics

Your clinic's reputation = your clinics revenue. That's what we've learnt here at the GCR through assessing over 409,000+ medical clinics worldwide.

We can help your clinic by providing a summary of your clinic's reputation, showing you all your online patient review scores in one place, helping you to identify issues / opportunities for growth and if your clinic is above the international average, help you promote your clinic as an "international standard".

We can also provide your clinic with the tools to:

- See where you stand against any clinic in the world
- Benchmark and improve patient satisfaction
- Ask questions and gain expert advice from our team
- Identify positive and negative clinic trends
- Find out how your clinic's reputation performs over time
